

*Mr. Roman Karlubik*

*President*

*Association of Chemical and Pharmaceutical Industry of the Slovak Republic*

*ZCHFP*

*Dear Mr. President,*

On the occasion of the 25th Anniversary of the foundation of the Association of Chemical and Pharmaceutical Industry of the Slovak Republic (ZCHFP) I would like to express the appreciation and sincere congratulations on behalf of the Board and membership of the Hungarian Chemical Industry Association (MAVESZ).

For 25 years ZCHFP has been actively supporting the development of the chemical and pharmaceutical industries in Slovakia and it has also become an authentic and articulate representative of the interests of the Slovak industries at the European level.

We are proud of the excellent relations between our associations, particularly within the framework of the V4 cooperation in advocacy for a European chemical legislation that is to support and promote the chemical industries in our countries.

Our special thanks are due to you, Mr. President, for your untiring efforts to voice and effectively represent the common position of Central European chemical industries on advocacy and legislative issues in European organizations and institutions.

In conclusion, MAVESZ wishes ZCHFP many further achievements for the benefit of the chemical and pharmaceutical industries of the Slovak Republic as well as for the development of our mutual cooperation.

Budapest, 29 November 2016

*Iván Budai*

*Member of the Board of MAVESZ*

*Director of the Association*
